VESTROM

ENGINEERING EXCELLENCE, DIGITAL INNOVATION, AND PROJECT LEADERSHIP

VESTROM (formerly Alternate Mechanics) is a Kenya-based consultancy combining technology, technical expertise, and structured delivery methodologies to de-risk and deliver complex developments.

WHO WE ARE

A digital engineering, project coordination, and construction consultancy firm built for the modern built environment.

OUR MISSION

To empower clients with innovative digital engineering and project management solutions that improve project delivery and create lasting asset value.

OUR VISION

To be the premier leading consultancy recognized for innovation, professionalism, and excellence in the built environment across the region.

THE ANATOMY OF A SUCCESSFUL PROJECT

PEOPLE

Flexible Specialist Network – Assembling the exact technical expertise required for each project while maintaining rigorous quality control.

PROCESSES

Structured Project Management – Utilizing proven, disciplined methodologies to monitor scope, schedule, and cost.

**SUCCESSFUL
OUTCOMES &
LASTING VALUE**

TECHNOLOGY

Digital Engineering Approach – Leveraging BIM, 3D Visualization, and Virtual Design & Construction (VDC) to drive informed decision-making.

PROJECTS SUCCEED ONLY WHEN PEOPLE, PROCESSES, AND TECHNOLOGY WORK TOGETHER.

VESTROM

THE ANTIDOTE TO PROJECT COMPLEXITY: A SINGLE POINT OF COORDINATION

From concept to handover, we absorb the friction of fragmented communication, allowing developers to focus on the big picture.

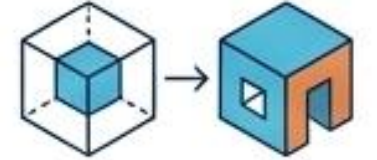

Integrated Project Delivery Ecosystem

Design Delivery Coordination

Aligning clients, consultants, and contractors to streamline workflows, improve communication, and ensure integrated, practical design solutions.

Digital Engineering

Leveraging Building Information Modeling (BIM), Virtual Design and Construction (VDC), and 3D visualization to enhance planning and performance.

360°

Project Management

Comprehensive planning, monitoring, and management of project scope, cost, schedule, quality, and risk.

Construction Consultancy

Providing technical oversight, site inspections, quality assessments, and independent advisory services to protect client interests.

The Digital Engineering Difference

	 Traditional Construction Management	 VESTROM Digital Engineering (BIM/VDC)
Spatial Coordination & Clash Detection	Reactive on-site conflict resolution, causing delays	Proactive 3D clash detection prior to construction
Cost Predictability	High variance, frequent blind variations	High accuracy through data-rich 3D modeling and strict procurement support
Stakeholder Communication	Fragmented 2D drawings, misaligned expectations	Immersive 3D visualization and centralized, single-point digital coordination
Project Handover	Disjointed paperwork and manual inspections	Structured completion support with integrated digital asset data

Multi-Sector Delivery Capabilities

RESIDENTIAL PROJECTS

Helping homeowners and developers navigate complexities through design oversight and risk management for functional, high-quality homes.

COMMERCIAL REAL ESTATE

End-to-end coordination, stakeholder management, and construction supervision for office buildings, retail spaces, and mixed-use developments.

INFRASTRUCTURE & PUBLIC WORKS

De-risking complex civic projects, institutional developments, and public-private partnerships (PPPs) through BIM-powered design coordination.

INDUSTRIAL & LOGISTICS

Integrating advanced digital engineering with precise field supervision for built-to-suit supply chain hubs and specialized structures.

Structured Project Delivery Roadmap

Corporate Governance & Regulatory Compliance

Corporate Identity

Entity: VESTROM CONSTRUCTION LIMITED

Company Number: PVT-J61606PA

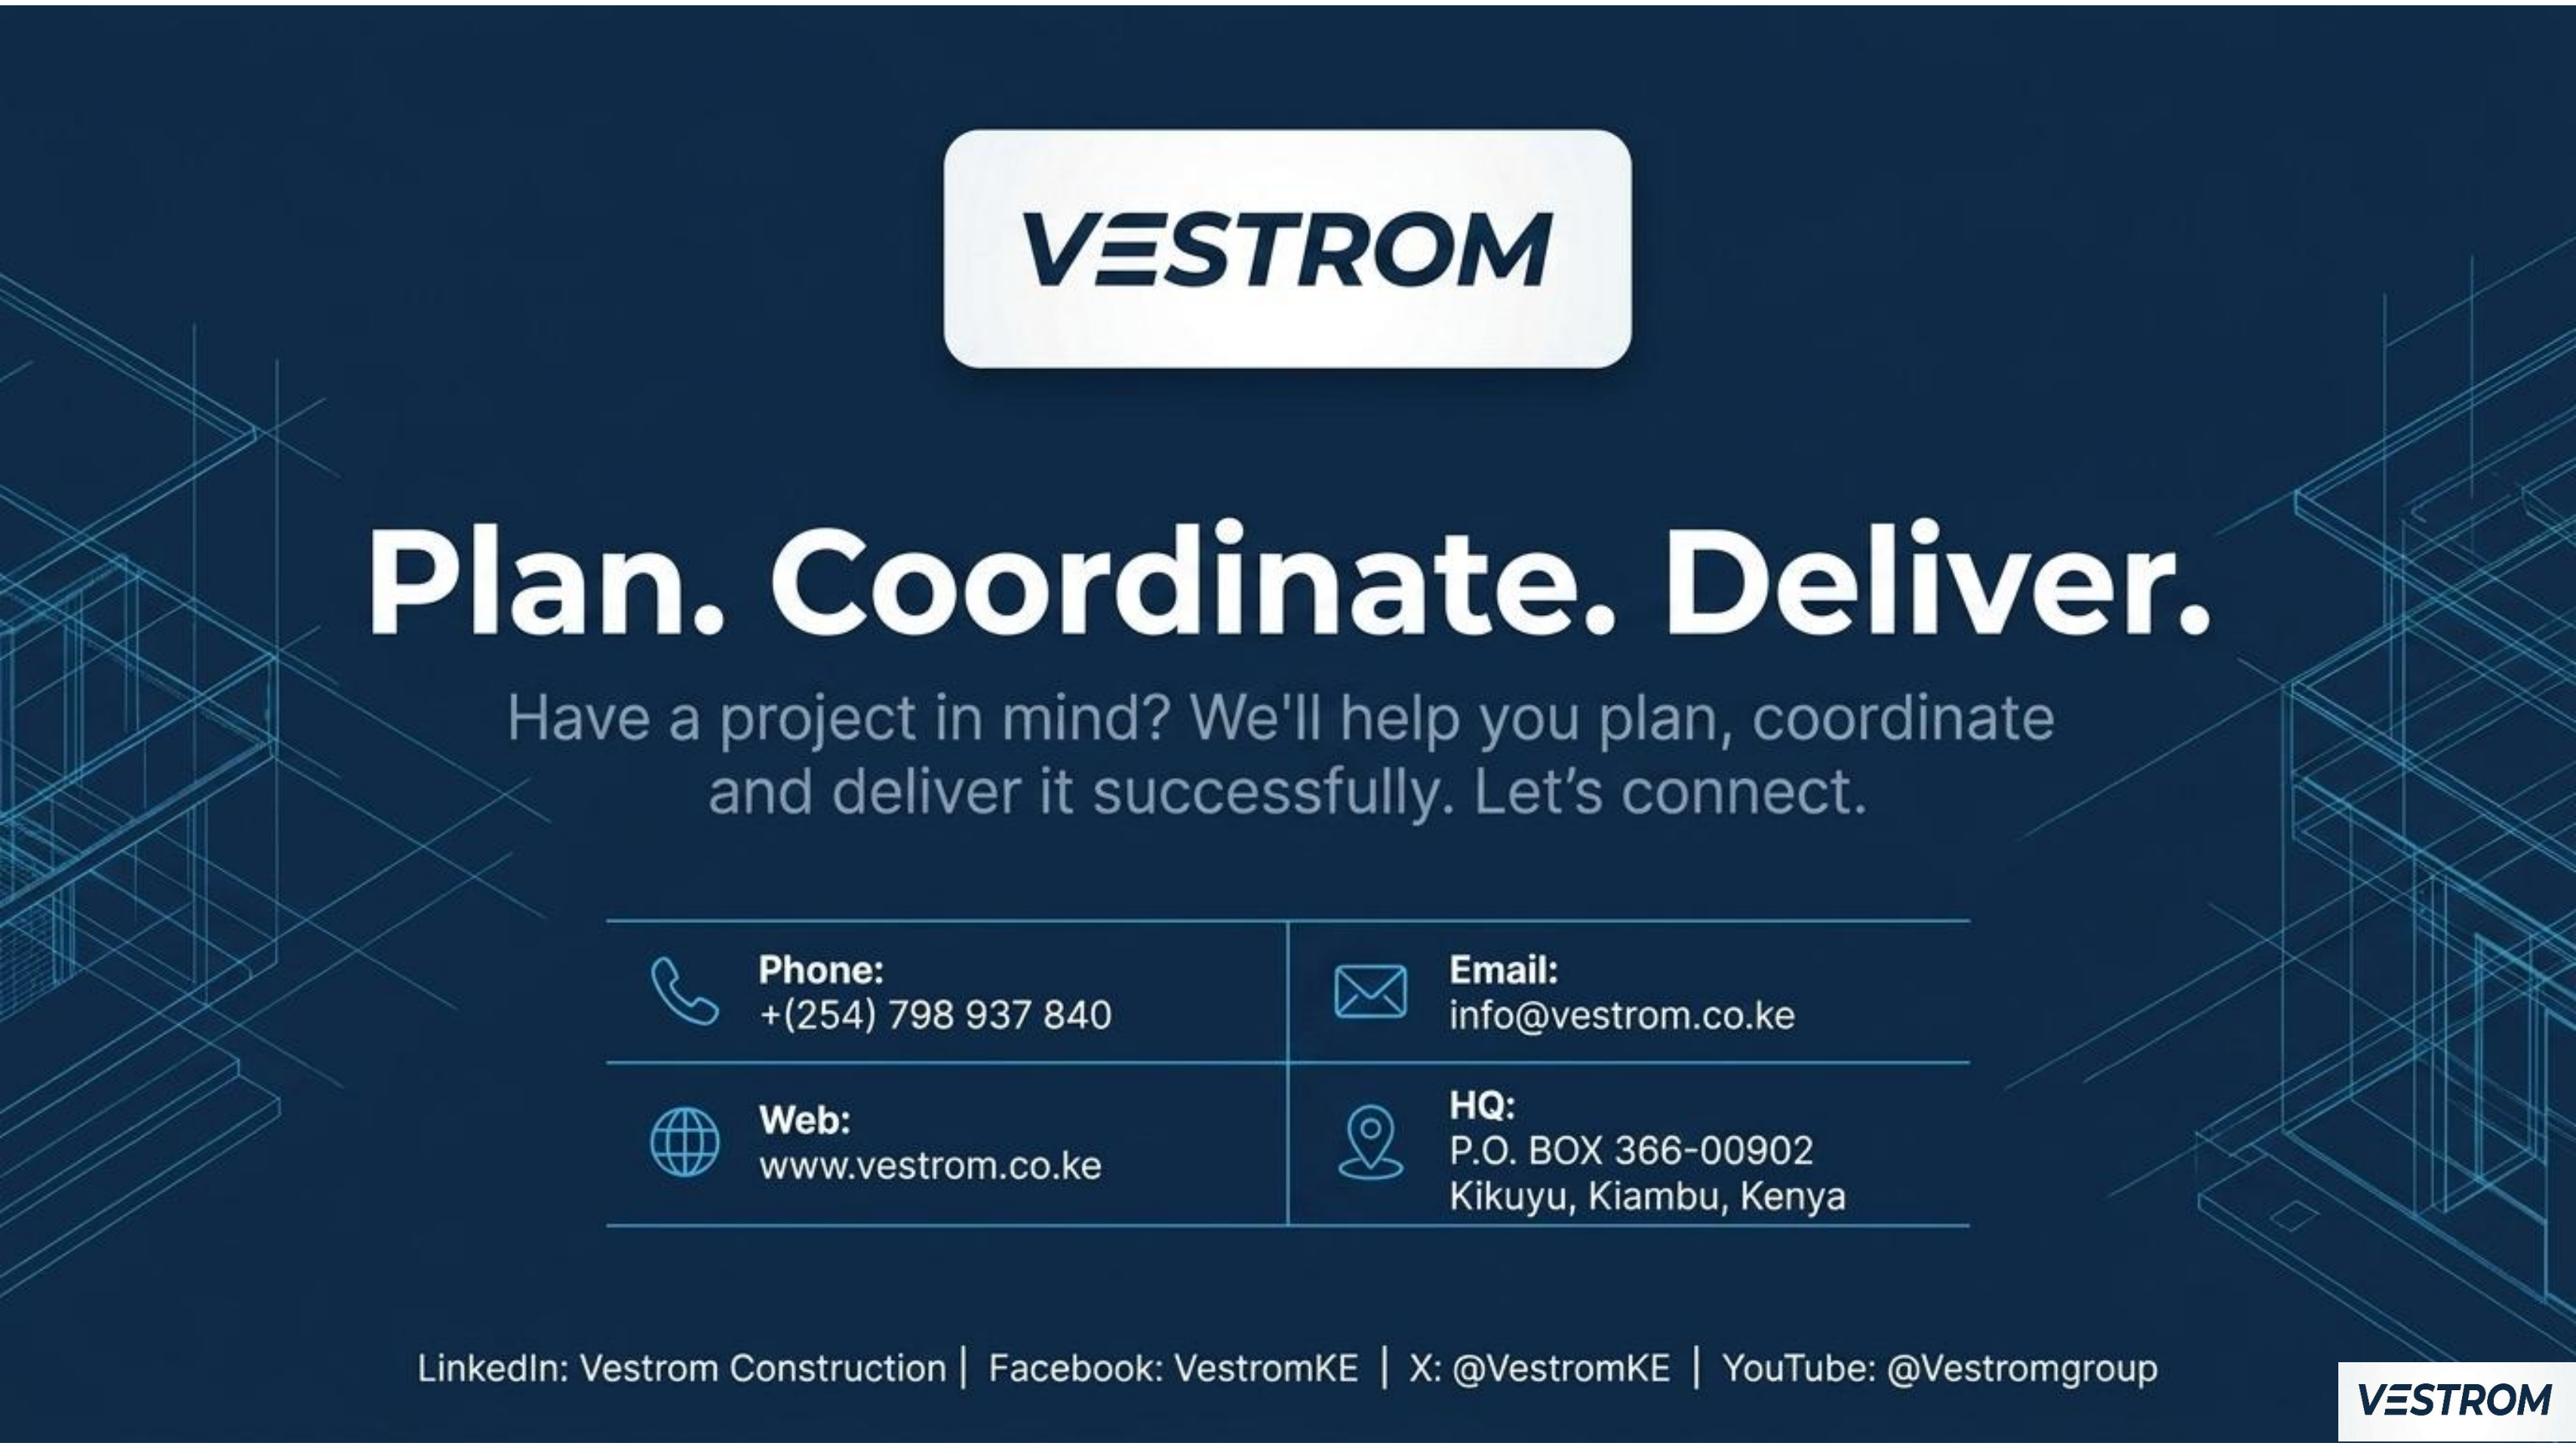

VESTROM

Regulatory Standing

Compliance: Fully compliant with the Companies Act 2015.

Statutory execution: Professional services requiring statutory registration are performed by appropriately licensed and registered consultants.

The background of the entire page is a dark blue color. On the left and right sides, there are faint, light blue architectural wireframe drawings of building structures, including walls, windows, and stairs, creating a sense of depth and design.

VESTROM

Plan. Coordinate. Deliver.

Have a project in mind? We'll help you plan, coordinate and deliver it successfully. Let's connect.
